## INTRODUCTION

Christian Liberty Press has developed the *Building Spelling Skills* series, which we believe will be very useful in teaching children how to spell correctly. This series has three main objectives. The first goal is to improve a student's spelling ability by giving him all the necessary skills to learn a group of similar words. We also want to help the student increase his spelling ability by teaching the student skills that will enable him to learn words by himself. Finally, the series aims to help the student gain confidence in his spelling skills by giving him various activities to help him reach his full spelling potential.

*Building Spelling Skills: Book 5* has thirty-six units; each unit has five lessons. In Lesson 1, the student will be required to study the list words, following the pattern found on page 1 of the workbook. In Lessons 2–4, the student will have to complete exercises that use words from the word list. Finally, in Lesson 5, the student will take the final test. During the final test, the student must write the words from the word list in the space provided at the back of the workbook. The instructor should utilize the list of words found on pages 41–45 of this answer key when giving the student his tests.

In addition to the exercises provided in the workbook, the teacher may wish to add other material to vary the student's work. This might include more crossword puzzles, word searches, games such as *Scrabble*, spelling bees, and expressing the words through pantomime or charades.

Writing exercises will help the student use the words in context and see the practical use of learning to spell, as well as encouraging creativity. You might want to start by having your student write sentences for words you have chosen from the list and broaden this writing into paragraphs, and eventually whole stories. Teachers may try giving a topic or allowing the student to choose his own topic using as many words as possible from the week's list in a short story or poem. This will provide the student with extra practice using grammatical and spelling skills within the context of creative writing projects.

May the Lord richly bless your efforts as you seek to teach your student to be a good speller.
